

BOISHAKHI GHOSH MUKTA

Software Developer

 bgmukta11@gmail.com  +4746529015  Oslo, Norway  Website  LinkedIn  Github

Profesional Summary

Software Developer with a Master's in Applied Computer Science from Høgskolen i Østfold, Norway. Published researcher in EdTech and gamification (MDPI 2025; IARIA 2024), with hands on experience delivering web applications using React, TypeScript, Node.js and modern technologies. Strong background in interaction design, user centred development, and cross functional collaboration. Fluent in English with working proficiency in Norwegian.

SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Shadcn
Backend: Node.js, Express.js, REST API
Database: MongoDB, PostgreSQL, SQL
CI/CD & Deploy : Netlify, Vercel - automated pipelines, deploy previews, environment management
AI-assisted development: Codex, Cursor, Google Antigravity, Claude
Tools & Platforms: Git, GitHub, Jira, Postman
Cloud: Azure, AWS (Fundamentals)

WORK EXPERIENCE

Frontend Developer, Innoscribe - Built and maintained a library of reusable React and TypeScript components following modern component based architecture patterns. - Delivered data driven UI features by integrating REST APIs and managing complex application state for dynamic, real time interfaces. - Optimised rendering performance through efficient component design, reducing unnecessary re-renders across key application flows. - Collaborated across design, backend, and QA in a cross functional team during full product launch cycle, contributing to usability testing and iterative UI improvements.	Nov 2025 – Apr 2026 Oslo, Norway
IT Assistant, Media Mondays Oslo - Managed digital data and supported technical event operations. - Conducted market and audience research to support engagement strategies.	Nov 2024 – Oct 2025 Oslo, Norway
Software Quality Assurance Engineer, DataSoft System Limited - Executed test cases and reported defects before a major release. - Developed strong understanding of user behavior, interface quality, and cross team collaboration in software development.	May 2019 – Aug 2019 Dhaka, Bangladesh

PROJECTS

CivicClean 

Tech: React - React Router - Tailwind CSS - Node.js - Express.js - MongoDB - Firebase - TanStack Query

- Developed an AI-assisted full-stack community platform for reporting and tracking local public infrastructure issues, featuring role based access control for three user types (Citizen, Staff, Admin), protected dashboards, payment flows, and a complete issue audit timeline.

- Implemented JWT middleware, REST APIs, PDF receipt generation, dark/light mode, and deployed the application using Netlify, Vercel, and MongoDB Atlas.

Pet Care Center

Tech : React - React Router - Tailwind CSS - JavaScript - Firebase

- Developed a mobile first web application with real time data handling and dynamic search and filtering, with focus on performance, usability, and smooth user experience for pet care.

EDUCATION

Master in Applied Computer Science, Høgskolen i Østfold

Aug 2022 – Jun 2025

Specialisation : Interaction Design and Information System.

Halden, Norway

Thesis: "Development & Assessment of a Gamified Learning Management System"

Bachelor in Computer Science & Engineering,

Jan 2015 – Dec 2019

International University of Business, Agriculture & Technology

Dhaka, Bangladesh

Certifications & Courses

- **Microsoft Certified** - Azure Fundamentals
- **Microsoft Certified** - Security, Compliance & Identity Fundamentals

Publications

Gamification in Learning Management Systems: A Systematic Literature Review (2025) 

Co-author - Focused on gamification techniques and user engagement in digital learning platforms (Information, MDPI)

A Collaborative Digital Platform for Charity Thrift Store Workers (2024) 

Co-author - Research on collaborative systems and user centered design in real world applications (IARIA Conference)

LANGUAGES

- English (Fluent)
- Norwegian (Working proficiency [B1 nivå])
- Bengali (Native)
